Relativistic fit
Nonrelativistic fit
Measurements
Momentum p (keV/c)
$\beta = E/B = v/c$
$\gamma\beta = \beta/\sqrt{1-\beta^2}$
Relativistic fit: χ^2/dof = 3.869/6 = 0.645
Nonrelativistic fit: χ^2/dof = 25.431/6 = 4.239
